

Pledge of Academic Integrity

I hereby declare that I have authored this paper independently, with the aid of no other sources than those declared in the bibliography. All passages excerpted from other print or electronic sources, either verbatim or in paraphrase, have been noted with reference to their source. This also applies for drawings, sketches, and images, as well as other online sources. In addition, I confirm that I have not used any Large Language Models (LLMs) such as ChatGPT for central tasks such as the formulation of entire text sections, the creation of the outline or the central and full methodology used in my paper. If I have used LLMs for peripheral, supporting tasks, I will describe their exact use in my paper below.
